PRODUCTS

Flamingo – HRMS Product

A web-based platform for managing employee data, attendance, payroll, and HR operations. Worked on HTML/CSS UI development and integrated layouts into React modules. Focused on responsive design, pixel-perfect implementation, and clean code structure

Brainstem – Education ERP

An ERP system for educational institutions to manage student data, courses, exams, and fees. Created responsive web pages using HTML/CSS and collaborated with React developers for integration. Ensured UI consistency, mobile compatibility, and component reusability.

IceApple – Hospital Management Software

Developed responsive UI layouts for a hospital ERP system in Angular, integrating HTML/CSS designs into components. Ensured clean code structure and consistent UI across modules like patients, appointments, billing, labs, and pharmacy.

PROJECTS

Developed and integrated designs into live websites. Overall, I have worked on 150+ projects for both national and international clients, some of which are listed below.
